

Grade 3 Division Worksheets

Printable Practice • Easy, Medium, Advanced & Mixed • Answer Keys Included

Name: _____ Date: _____

Easy Division Practice

Solve each division fact. Think about equal groups.

1. $12 \div 3 =$ _____

2. $10 \div 2 =$ _____

3. $15 \div 5 =$ _____

4. $8 \div 4 =$ _____

5. $18 \div 3 =$ _____

6. $20 \div 5 =$ _____

7. $14 \div 2 =$ _____

8. $16 \div 4 =$ _____

9. $21 \div 3 =$ _____

10. $25 \div 5 =$ _____

11. $9 \div 3 =$ _____

12. $12 \div 2 =$ _____

13. $24 \div 4 =$ _____

14. $30 \div 5 =$ _____

15. $18 \div 2 =$ _____

16. $27 \div 3 =$ _____

17. $32 \div 4 =$ _____

18. $35 \div 5 =$ _____

19. $6 \div 2 =$ _____

20. $28 \div 4 =$ _____

21. $40 \div 5 =$ _____

22. $24 \div 3 =$ _____

23. $16 \div 2 =$ _____

24. $36 \div 4 =$ _____

25. $45 \div 5 =$ _____

Medium Division Practice

Solve each fact. Use multiplication to check your work.

1. $42 \div 6 =$ _____

2. $56 \div 8 =$ _____

3. $63 \div 7 =$ _____

4. $48 \div 6 = \underline{\quad}$
5. $72 \div 9 = \underline{\quad}$
6. $54 \div 6 = \underline{\quad}$
7. $36 \div 4 = \underline{\quad}$
8. $64 \div 8 = \underline{\quad}$
9. $45 \div 9 = \underline{\quad}$
10. $49 \div 7 = \underline{\quad}$
11. $32 \div 8 = \underline{\quad}$
12. $27 \div 9 = \underline{\quad}$
13. $40 \div 8 = \underline{\quad}$
14. $35 \div 7 = \underline{\quad}$
15. $24 \div 6 = \underline{\quad}$
16. $81 \div 9 = \underline{\quad}$
17. $28 \div 7 = \underline{\quad}$
18. $18 \div 6 = \underline{\quad}$
19. $50 \div 5 = \underline{\quad}$
20. $42 \div 7 = \underline{\quad}$
21. $30 \div 6 = \underline{\quad}$
22. $56 \div 7 = \underline{\quad}$
23. $72 \div 8 = \underline{\quad}$
24. $36 \div 9 = \underline{\quad}$
25. $64 \div 4 = \underline{\quad}$

Advanced Division Practice

Find missing numbers, compare quotients, and connect multiplication with division.

1. $\square \div 6 = 7$
2. $8 \times \square = 56$
3. $72 \div \square = 8$
4. $\square \div 9 = 6$
5. $7 \times \square = 63$
6. $64 \div 8 = \underline{\quad}$
7. Which is greater: $54 \div 6$ or $48 \div 8$? $\underline{\quad}$
8. $\square \div 4 = 9$
9. $45 \div \square = 5$
10. $6 \times \square = 42$
11. $81 \div 9 = \underline{\quad}$
12. If $8 \times 7 = 56$, then $56 \div 8 = \underline{\quad}$

13. $36 \div \square = 6$
14. $\square \div 7 = 8$
15. $9 \times \square = 72$
16. Compare: $40 \div 5$ _____ $24 \div 3$ (write $>$, $<$, or $=$)
17. $63 \div 9 =$ _____
18. $\square \times 6 = 54$
19. $48 \div \square = 6$
20. If $9 \times 4 = 36$, then $36 \div 9 =$ _____
21. $70 \div 7 =$ _____
22. $32 \div \square = 4$
23. Which equation matches 6 groups of 8? A) $48 \div 6 = 8$ B) $48 \div 8 = 8$. Write A or B: _____
24. Find the missing number: $5 \times \square = 45$
25. A number divided by 8 equals 7. What is the number? _____

Mixed Division Practice

This review combines division facts, multiplication facts, and missing-number problems.

1. $24 \div 6 =$ _____
2. $7 \times 8 =$ _____
3. $45 \div 5 =$ _____
4. $\square \div 4 = 6$
5. $36 \div 9 =$ _____
6. $6 \times 7 =$ _____
7. $64 \div 8 =$ _____
8. $42 \div 7 =$ _____
9. $5 \times \square = 35$
10. $54 \div 9 =$ _____
11. Which equals 8? A) $48 \div 6$ B) $56 \div 7$ C) both
12. $32 \div 4 =$ _____
13. $72 \div 8 =$ _____
14. $\square \div 5 = 9$
15. $27 \div 3 =$ _____
16. $9 \times 6 =$ _____
17. $40 \div 8 =$ _____
18. $56 \div 7 =$ _____
19. $36 \div \square = 4$
20. $63 \div 7 =$ _____
21. Compare: $48 \div 8$ _____ $35 \div 5$

22. $8 \times \square = 64$

23. $30 \div 5 = \underline{\hspace{2cm}}$

24. $81 \div 9 = \underline{\hspace{2cm}}$

25. If $7 \times 6 = 42$, then $42 \div 6 = \underline{\hspace{2cm}}$

Easy Division Word Problems

Read each problem and write a number sentence before solving.

1. 12 crayons are shared equally among 3 students. How many crayons does each student get?
2. Ten apples are placed equally into 2 bags. How many apples are in each bag?
3. 15 toy cars are arranged in 5 equal rows. How many cars are in each row?
4. 8 cookies are shared equally by 4 children. How many cookies does each child get?
5. 18 stickers are split equally among 3 friends. How many stickers does each friend get?
6. 20 pencils are packed equally into 5 cups. How many pencils go in each cup?
7. 14 soccer cards are shared by 2 players equally. How many cards does each player get?
8. 16 books are placed equally on 4 shelves. How many books are on each shelf?
9. 21 oranges are put into 3 equal baskets. How many oranges are in each basket?
10. 25 markers are divided equally among 5 art tables. How many markers go on each table?
11. 9 muffins are shared equally by 3 kids. How many muffins does each kid get?
12. 12 balls are placed into 2 equal bins. How many balls are in each bin?
13. 24 shells are shared equally among 4 students. How many shells does each student get?
14. 30 grapes are placed equally on 5 plates. How many grapes are on each plate?
15. 18 balloons are split equally between 2 classrooms. How many balloons does each classroom get?
16. 27 baseball cards are shared among 3 friends. How many cards does each friend get?
17. 32 blocks are arranged in 4 equal towers. How many blocks are in each tower?
18. 35 paper clips are divided equally into 5 boxes. How many paper clips go in each box?
19. 6 cupcakes are shared equally by 2 siblings. How many cupcakes does each sibling get?
20. 28 crayons are put equally into 4 boxes. How many crayons are in each box?
21. 40 beads are divided equally among 5 necklaces. How many beads are on each necklace?
22. 24 students line up in 3 equal teams. How many students are on each team?
23. 16 juice boxes are shared equally by 2 tables. How many juice boxes does each table get?
24. 36 leaves are collected into 4 equal piles. How many leaves are in each pile?
25. 45 toy dinosaurs are divided equally among 5 bins. How many dinosaurs are in each bin?

Medium Division Word Problems

Show your thinking with a multiplication check when helpful.

1. 48 library books are placed equally on 6 shelves. How many books go on each shelf?

2. 56 students are split into 8 equal teams. How many students are on each team?
3. A coach has 63 tennis balls and puts them in 7 equal baskets. How many balls are in each basket?
4. 48 cupcakes are packed into 6 equal boxes. How many cupcakes are in each box?
5. 72 stickers are shared equally among 9 students. How many stickers does each student get?
6. 54 cans are arranged equally in 6 rows. How many cans are in each row?
7. 36 plants are placed in 4 equal garden beds. How many plants are in each bed?
8. 64 crayons are divided among 8 art bins equally. How many crayons are in each bin?
9. 45 runners are assigned to 9 equal groups. How many runners are in each group?
10. 49 baseball cards are shared equally among 7 friends. How many cards does each friend get?
11. 32 muffins are placed equally on 8 trays. How many muffins are on each tray?
12. 27 students sit equally at 9 tables. How many students sit at each table?
13. 40 oranges are placed equally into 8 bags. How many oranges are in each bag?
14. 35 pencils are divided equally among 7 classrooms. How many pencils does each classroom get?
15. 24 fish are divided equally among 6 aquariums. How many fish go in each aquarium?
16. 81 beads are divided equally among 9 bracelets. How many beads are on each bracelet?
17. 28 players are assigned to 7 equal teams. How many players are on each team?
18. 18 sandwiches are split equally among 6 picnic groups. How many sandwiches does each group get?
19. 50 pages are read over 5 equal days. If the same number of pages is read each day, how many pages per day?
20. 42 flowers are arranged equally in 7 vases. How many flowers go in each vase?
21. 30 juice boxes are shared equally among 6 classrooms. How many boxes does each classroom get?
22. 56 stickers are put equally on 7 posters. How many stickers go on each poster?
23. 72 students are split equally into 8 groups. How many students are in each group?
24. 36 shells are divided equally among 9 jars. How many shells go in each jar?
25. 64 cookies are packed equally into 4 containers. How many cookies go in each container?

Advanced Division Word Problems

These enrichment problems may require more than one step. Write the answer with units.

1. A school orders 8 boxes of pencils with 9 pencils in each box. The pencils are shared equally among 6 classrooms. How many pencils does each classroom get?
2. 72 students are placed into teams of 8. Then each team is split into 2 equal groups. How many students are in each smaller group?

- 3.** A baker puts 56 rolls equally into 7 bags. The store sells 3 bags. How many rolls were in the bags sold?
- 4.** Six buses each carry 8 students from a club. The students are divided equally into 4 activity groups. How many students are in each group?
- 5.** A teacher has 63 stickers and gives 7 stickers to each student. How many students receive stickers?
- 6.** Four shelves hold 9 books each. The books are rearranged equally onto 6 shelves. How many books are on each shelf?
- 7.** A gardener plants 8 rows with 7 flowers in each row. The flowers are split equally into 4 garden plots. How many flowers are in each plot?
- 8.** Nine teams each collect 6 cans. The cans are shared equally among 3 donation boxes. How many cans go in each box?
- 9.** A school has 48 markers. It gives 6 markers to each table. If 2 tables receive markers, how many markers remain?
- 10.** Five packs contain 8 trading cards each. The cards are shared equally among 4 children. How many cards does each child get?
- 11.** A library has 7 shelves with 8 books each. It sends 14 books to another room. How many books remain?
- 12.** 54 students are split equally into 6 groups. Each group then gets 2 new students. How many students are in each group now?
- 13.** A coach has 72 cones and sets up 8 equal stations. Then 2 cones are added to each station. How many cones are at each station?
- 14.** Forty-five apples are packed into bags of 5. If 3 bags are used for a picnic, how many apples are used?
- 15.** Eight boxes contain 7 markers each. The markers are shared equally among 4 classrooms. How many markers does each classroom get?
- 16.** Three classes have 24 students each. All students are divided equally into 8 teams. How many students are on each team?
- 17.** A craft club makes 6 strings with 8 beads each and shares all beads equally among 4 bracelets. How many beads are on each bracelet?
- 18.** Sixty-four tickets are divided equally among 8 volunteers. Each volunteer gives away 3 tickets. How many tickets does each volunteer have left?
- 19.** Seven bags have 9 marbles each. The marbles are shared equally among 3 players. How many marbles does each player get?
- 20.** A school buys 6 cartons with 8 juice boxes each. Students drink 12 boxes. The rest are shared equally among 4 classes. How many boxes does each class get?
- 21.** Eight teams have 7 players each. The players are rearranged into 4 equal teams. How many players are on each new team?
- 22.** A store puts 9 toy cars in each of 6 bins. It sells 18 cars. The remaining cars are split equally among 3 shelves. How many cars go on each shelf?

- 23.** Five classes collect 9 cans each. They share all cans equally among 3 food-bank boxes. How many cans go in each box?
- 24.** Forty-eight pages are split into 6 equal reading assignments. A student completes 2 assignments. How many pages did the student read?
- 25.** A farmer collects 8 baskets with 6 pears each and packs the pears equally into 4 crates. How many pears are in each crate?

Mixed Division Word Problems

Use division, multiplication, or both to solve each real-world problem.

- 1.** A teacher has 36 pencils and puts 4 in each cup. How many cups can be filled?
- 2.** Seven students each bring 8 cans for a food drive. The cans are shared equally among 4 boxes. How many cans go in each box?
- 3.** 48 students are divided into 6 equal groups. How many students are in each group?
- 4.** An art class has 5 packs of 9 markers. The markers are shared equally among 3 tables. How many markers go on each table?
- 5.** Sixty-four books are placed equally on 8 shelves. Then 2 more books are added to each shelf. How many books are on each shelf now?
- 6.** A coach has 42 players and makes 7 equal teams. How many players are on each team?
- 7.** Nine bags have 6 apples each. The apples are shared equally among 3 classrooms. How many apples does each classroom get?
- 8.** Thirty-six stickers are shared equally among 4 students. How many stickers does each student get?
- 9.** A store packs 56 toy blocks equally into 7 bags. How many blocks are in each bag?
- 10.** Six teams have 8 players each. The players are split equally into 4 new teams. How many players are in each new team?
- 11.** Forty-five cookies are packed into 5 equal containers. How many cookies are in each container?
- 12.** A library puts 72 books equally onto 9 carts. How many books go on each cart?
- 13.** Eight trays hold 7 muffins each. The muffins are shared equally among 4 classes. How many muffins does each class get?
- 14.** Twenty-four students form 3 equal groups. Then each group is split into 2 equal teams. How many students are on each smaller team?
- 15.** A gardener plants 63 seeds in 7 equal rows. How many seeds are in each row?
- 16.** Thirty-two juice boxes are shared equally among 8 tables. How many boxes does each table get?
- 17.** A shop has 54 pencils and puts 6 pencils in each pack. How many packs can it make?
- 18.** Seven baskets have 8 oranges each. The oranges are shared equally among 4 families. How many oranges does each family get?
- 19.** A class reads 40 pages over 5 days, reading the same number each day. How many pages per day?

- 20.** Six boxes have 9 toy cars each. If 12 cars are given away, how many cars remain?
- 21.** Fifty-six students are divided into 8 equal groups. How many students are in each group?
- 22.** Three shelves each hold 8 games. The games are rearranged equally onto 4 shelves. How many games are on each shelf?
- 23.** Forty-eight beads are split equally among 6 bracelets. How many beads are on each bracelet?
- 24.** A team collects 27 bottles and puts them equally into 3 bags. How many bottles go in each bag?
- 25.** Nine classrooms each receive 8 notebooks. The notebooks are gathered and shared equally among 6 supply bins. How many notebooks go in each bin?
